

How to sort and dispose household garbage and recyclable resources

KANI CITY

~Follow good manners for disposing of garbage and create a good environment~
Contact▶Kani City Hall Environment Section 0574-62-1111

Burnable garbage that can be dispose to burnable collection site.

Please put waste in a burnable garbage bag specified by Kani city.

- Food waste (Drain well)
 - Waste paper
 - Cloths · Vinyls · Plastic thin enough to break by hand
- For disposal of cut branches and wooden boards, refer below.

Non-burnable garbage (hard to process)

Garbage that can be dispose to non-burnable collection site.

Use non-burnable garbage specified by Kani City or attach an oversized garbage sticker.

—Non-burnable garbage—

- **Metal (hard to processed garbage)**
 - Appliance (recyclable home appliances not included)
 - LED light bulb
 - Plastics ※Dispose hard to process items to non-burnable garbage.
 - Metal items ※Consume all its content before disposing.

- **Glassware** · glass items, light bulb, cosmetic and medicinal bottles, etc.

- **Ceramics** · tiles, concrete debris, plates, tea cups, etc.

- Items made out of metal, glass or ceramics need to be placed in separate garbage bags.
- Check collecting dates from the garbage collection schedule.

—Bulk garbage— (150cmX80 cmX60 cm and up to about 20kg)

Attach an oversized garbage sticker to items that do not fit in the garbage bag but do not exceeds the designated size and weight.

Example: furniture, futon, bicycle, etc.

※Bicycles and skis can be dispose even if they exceed the prescribed size.

Pruned branches · wood materials

Pruned branches: wood can be recycled. For items that exceeds 10cm, contact the contractors listed at the back. (with charge)

branch/log

3cm thick or less that fits in a garbage bag should be considered as burnable garbage

Wood board

Items that do not exceeds 10cm thickness, that fits in the garbage bag should be considered as non-burnable garbage.

Recyclable personal computers

The method of processing is different depending on the presence or absence of the recycle mark (left figure) for home PCs.

With recycle mark
Put items in a small household appliance collection box or contact the trader for processing.

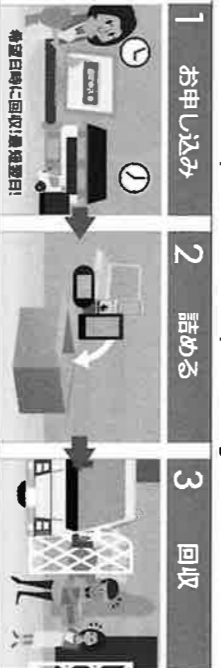

Without recycle mark
Put items in a small household appliance collection box or dispose to non-burnable trash section.

PCs that do not fit in the collection box will be dispose as non-burnable garbage. Please delete data that contains personal information.

We collect unnecessary PCs with a parcel delivery service.

Other way of disposing PCs
You can use a parcel delivery service to dispose of your PC for free. After applying via the Internet, the delivery service will come to you and pick up at the designated date and time (fastest will be the next day, all year round). For details on how to apply, go to Lynette Japan Recycle Inc. a nationally certified company. CRT monitors require additional processing costs due to harmful substances.

Kani city eco dome information map

※When disaster warning has been announced, we will stop operating.

To business enterprises

- ・You are the one responsible in disposing your garbage.
- ・Garbage cannot be dispose at collection sites.
- ・For garbage collection, contact the licensed collectors or Sasayuri Clean Park.
- ・Industrial waste cannot be dispose at Sasayuri Clean Park.

How to dispose of garbage in the event of a disaster

○ You can not put out garbage right after an earthquake ○
In case of more than intensity 5 earthquake, garbage cannot be processed for 3 days due to Sasayuri Clean Park inspection. Large amount of garbage at the collection site may cause emergency vehicles to not be able to pass due to overflowing of garbage.

○ Follow the rules on where to throw out garbage ○

We will set up a temporary storage space to accept garbage during disasters in the city. In the temporary storage space, we employ different sorting method from ordinary sorting in order to speed up garbage disposal and promote recycling. The temporary storage will be announced as soon as it is ready.
